

Special Programs

The International Baccalaureate Program

Prepares students for a global society by developing inquiring, knowledgeable and caring young people who help to create a better, more peaceful world through intercultural understanding and respect. To this end, the IB organization works with schools, governments and international organizations to develop challenging programs of international education and rigorous assessment to prepare students aged 16 to 19 for success at university and life beyond.

Gifted Student

Provides academically gifted students with an opportunity to develop individual educational plans in academic areas, and/or in areas of high interest.

School-Community Intervention Program

A broadly-based school and community program to educate students and parents about drug use and abuse. The program involves identification, intervention, treatment and reintegration strategies.

Student-Parent Program

A school-community program for pregnant students and young parents having three components: health, guidance and education focusing on knowledge and skills related to self-empowerment, pregnancy, parenting, healthy lifestyles and economic independence.
